

Reduce delinquencies, increase on-time payments, alleviate staff workload, and improve rent efficiency.

Domuso has revolutionized rent payments, leading the industry toward the digital age.

WE ELIMINATE:

Money Orders

Domuso enables residents to convert a paper money order into a digital payment and offers more certified payment options than anyone else. Still handling money orders? Many residents refuse to switch, forcing teams to accept them even at 'paperless' properties.

Credit Card Disputes

Domuso certifies all credit card payments and handles disputes. Properties never experience chargebacks or waste time processing them. 3 of every 100 rent payments made by credit card will be disputed. Properties typically lose over half of these cases.

Check Scanners

Domuso's Mobile Check Pay allows residents to submit checks & money orders from their mobile devices. With the only mobile check scanner on the market that scans money orders, completely eliminating check scanners is now achievable.

"Domuso has been an invaluable technology partner and they are vital in helping our portfolio transition into 100% digital paperless rent collection."

- Lori Krull. Partner, Weller Management

Switching is easy.
Domuso integrates seamlessly with other providers.
